

VIE

Description...

VIE is a brand new, unique and innovative technology which stands for Visual Image Entrainment.

It is perhaps the most unique way for anybody to instantly effect their mood, ability, intelligence, psyche, and literally any other facet of “self” that may be involved in your everyday life.

This technology is not a system that takes months or even years to show effect or in fact be effective. This technology is literally the first of its kind in this field to be able to elicit a response, a positive response in as little as 3 minutes or less, often from the very first use.

Here is the basic architecture of VIE...

- 1) Cutting edge properly engineered audio-based brainwave entrainment by TMM (The Morry Method).
- 2) Specially curated imagery embedded with specialized coding using a proprietary technique that is unique to TMM.
- 3) The use of “frequency balanced color” which is a brand new integrated color therapy technique to further enhance the effect/effectiveness of the VIE.
- 4) A visual entrainment aspect that helps to further elevate the VIE technique to a whole new level.

All packed in a 3-minute video!

The Instructions are easy...

Download and play/watch ;)

You can stream it to your tv, or play it your tablet your phone, even your computer.

It's best to listen/watch with ordinary stereo headphones (do not use any noise cancelling technology or you may negate some of my embedded coding).

The VIE technology can be used without the audio aspect however they will likely be slightly less effective.

You should watch/listen a minimum of 5 times for a total of 15 minutes a day. Each video is only 3 minutes in length.

I am introducing this new technology with 6 topics...

- 1) Active VIE
- 2) Career VIE
- 3) Happy VIE
- 4) Meditation VIE
- 5) Prosperity VIE
- 6) Sleep VIE

- Absolutely any topic can be created, even custom VIE's with your own photos!

This is a brand new and cutting-edge technology never before seen, anywhere. It includes proprietary embedded technology and techniques exclusive to TMM.

Just sit back and watch with your full attention 5 times, for a total of 15 minutes each day.

I'm here for you.

Morry

TMM VIDEO/AUDIO BASED BRAINWAVE ENTRAINMENT SYSTEMS TECHNOLOGY IS NOT RECOGNIZED AS A TREATMENT OR CURE OF ANY MEDICAL CONDITION OR DISABILITY. The TMM video/recording brainwave entrainment systems are a set of non-invasive tools. All resulting effects are produced in the brain solely by audio and visual stimulation.

WARNINGS...

- 1) If you are an epileptic, photic epileptic or have any history of seizures: We recommend that all persons who have a history of epilepsy, photic epilepsy or have ever had a seizure of any kind not use the TMM Video based brainwave entrainment systems (VIE) unless under the supervision of a health care professional who is qualified in the safe detection of seizures.
- 2) We recommend that people who have had a brain injury or have a history of psychiatric illness or mental disorders not use the TMM video/audio brainwave entrainment systems unless under the supervision of a qualified health care professional.
- 3) We recommend that people currently using drugs and/or excessive alcohol consumption not use the TMM video/audio based brainwave entrainment systems unless under the supervision of a qualified health care professional.
- 4) We advise that you always remain seated or reclined while using the TMM video/audio based brainwave entrainment systems.
- 5) If at any time during a listening/viewing session, you begin to feel a sense of vertigo, nausea, euphoria, "déjà-vu", or a sense of mental instability, lower the volume of the tones or discontinue the session.

Traumatic Childhood or Other Experiences – The Morry Method technology may cause the release of suppressed memories. If traumatic memories surface during or after a session, be certain to seek appropriate support.

Somatic Shock - If abruptly returning to a normal conscious state, a mild case of somatic shock can result, leaving the user feeling disoriented, nauseous, or experiencing a mild headache.

Orthostatic Hypotension - Occasionally when a person becomes very relaxed during a session, his/her blood pressure may fall significantly. We advise rising slowly after a session.

DISCLAIMER OF LIABILITY Morry Zelcovitch Brainwave Technology Inc., its employees, its authorized dealers and distributors shall not be held liable for any claim, demand, action, cause of action, liability or damages arising out of any injuries resulting from malfunction or defect of the TMM videos/recordings whether willful or negligent either to person or damage to property of the purchaser, employees of the purchaser, persons designated by the purchaser for training in the use of the TMM system(s), clients or patients of the purchaser, any other person, designated by the purchaser for any

purpose, prior to or subsequent to acceptance, delivery, installation and use of the TMM system(s). The purchaser, employees of the purchaser, clients or patients of the purchaser or any other person designated by the purchaser for any purpose, hereby undertake to waive and disclaim any action in respect of the aforesaid terms as above.
